---

I am purchasing KWP Spring Orchard **Georgetown** door style with **White** painted finish. Joint fracturing is common with painted wood cabinets, This fracturing is caused by changes in humidity levels within the home caused by varying weather conditions, This expansion and contraction may cause some visible cracks in the painted finish, particularly in the joint areas. Also, there may be a slight color shift due to continued exposure to natural and artificial light sources over time. We mention these characteristics because neither Schillings nor KWP can be responsible for these conditions.

---

Schillings does not provide installation on cabinetry. Final adjustments to the doors and drawers are necessary and are the responsibility of the installer or the homeowner. If there is a problem that requires a replacement order, Schillings will do what we can to get the replacement product order rushed. However, Schillings cannot guarantee lead times and cannot offer monetary compensation or discounts for any delays. All single door cabinets come hinged RIGHT. Reversing hinging, as needed, is the installer's responsibility.

Also, please be advised that additional labor costs can be incurred by adding materials that are labor intensive to install (ex: handles, moldings, roll out trays, etc).

All stock kitchen cabinets must be returned in original factory sealed box with packaging and will be charged a 20% restocking fee. Credit will be issued only after inspection of cabinets by our distribution center in Cedar Lake. **I agree to inspect for damage within 7 days of pickup/delivery.**
